STIR/SHAKEN

Caller ID Authentication is being implemented to combat illegal
Caller ID spoofing. STIR/SHAKEN (Secure Telephone Identity
Revisited / Signature-based Handling of Asserted Information
Using toKENs standards are being implemented to eliminate
false Caller ID. You may have already seen this working with
your Caller ID indicating a SPAM call. Visit FCC.gov for more
information and timelines.

What you should know about the NATIONAL DO NOT CALL REGISTRY:

The National Do Not Call Registry gives you a choice about
whether to receive telemarketing calls at home or on your mobile
device. Most telemarketers should not call your number once it
has been on the registry for 30 days. If they do, you can file a
complaint at www.donotcall.gov. You can register your home or
mobile phone for free.

TELECOMMUNICATIONS FOR DEAF, HEARING, OR VOICE IMPAIRED

DIAL 7-1-1 FOR THE ILLINOIS RELAY SERVICE

ILLINOIS RELAY SERVICE is a 24 hour a day, seven days a week service in cooperation with the Illinois Telecommunications Access Corp. To call a person who is hearing impaired or voice impaired and uses a TTY, simply dial 7-1-1. TTY's are special typewriter devices used by persons who are hearing or voice impaired to communicate over the telephone.

Give the Relay Operator the telephone number of the person you want to call. The Relay Operator speaks to the standard telephone user and types to the TTY user. There is no additional cost for the use of this service.

To save time in an emergency, callers should dial their local 9-1-1 or local emergency access numbers instead of placing a call through relay.

Illinois Relay is required by federal and state law and is funded by a small fee included in your monthly service charge. For information about Relay, call ITAC at 1-800-841-6167 (voice or TTY).
